TECHNICAL FEATURES

**»»AHEAD OF TIME
SINCE 1969««**

The Screening Room is work space and 4K showroom at the same time. It covers 100 square meter and has a seating area for up to 30 people. They can watch the men behind the console, who are in the middle of recording an artist. They can witness the cutting procedure, they can experience film restoration, color correction and grading while it is under way.

The Screening Room is designed as 'a studio demonstration area' where workshops, tutorials and professional training classes can be held. It is the work space for the next generation of digital media designers .
