

# STUDIO I TECHNICAL FEATURES

»»AHEAD OF TIME  
SINCE 1969««

Step into the realm of Studio 1 at Dierks Studios, a sanctuary of sound and creativity that stands unmatched. Freshly renovated, Studio 1 now houses a treasure trove of keyboard instruments, offering an exquisite blend of the very vintage and the cutting-edge digital/analog. This studio doesn't stop there; it's also equipped with drums, guitars, basses, and a wide array of percussion instruments, making it a comprehensive Klang- und Kreativwerkstatt for musicians and producers alike.

The heart of Studio 1, the control room, is outfitted with an Audient ASP 8024 console, providing pristine sound quality and versatile mixing capabilities. Monitoring is handled by the ADAM SX3V speakers, ensuring accurate sound reproduction. At the core of the studio's digital workflow is the SSL Nucleus, integrated seamlessly with Logic Pro on a MacBook Pro, creating a fluid and intuitive production environment for artists and engineers.

## Mixing Console

Audient ASP 8024 console

## Monitoring

Tannoy  
Yamaha NS 10  
Auratones

## Tape Machines

Studer D827 MCH MK II

## DAW

Mac Pro with Pro Tools , Logic and Cubase

## Instruments

- **Fender Rhodes Suitcase 88:** The quintessential electric piano, known for its warm, vibey tones.
- **Steinway Grand Piano S-155 and Upright Piano:** Offering unparalleled acoustic piano tones for classical and contemporary pieces.
- **Mellotron:** For iconic tape-based polyphonic sounds.
- **Hohner Clavinet D-6:** Delivering the funky clavinet sounds beloved in funk and rock.
- **Yamaha MO-8 and KX5:** Versatile workstations for a broad range of sounds.
- **MiniNova and Waldorf Blofeld Keyboard:** For cutting-edge synthesizer textures.
- **Korg DW-8000:** A classic polyphonic synthesizer known for its distinctive sounds.
- **Roland SP-700 and S-760 Samplers:** For detailed sampling capabilities.
- **NI B4:** Virtual organ software for authentic Hammond sounds.
- **Korg P3 Piano Module, Yamaha KX88, and Roland FP-7 Digital Piano:** Expanding the palette with more keyboard sounds and features.
